'The gun continued to be levelled at me.  
"Answer it...but don't tell him I'm here or he'll  
get to listen to you die." That concentrated  
my mind considerably, and as I reached for  
my phone I came up with a plan...'

Emma Grayson was left devastated when her  
life was torn apart by tragedy and betrayal. Now  
someone believes it's time for her to start again  
and puts an advert for a job through her door  
which leads her to the Melton Estate. Despite her  
desire for a solitary existence she finds herself  
discovering a life she could never have imagined,  
challenging her independence, her fears and her  
resistance to love.

*'...an inspiring story that is filled with  
humanity and intriguing twists.'*
